

**Cylindrical Solid State Pump**

**Cubed Solid State Cube Pump**

**Fuel Injection Pumps**

## Facet Electronic Fuel Pumps

The long life and dependability of MOTOR COMPONENTS, LLC. ELECTRONIC FUEL PUMPS (including Facet/Purolator Electronic Fuel Pumps) are the result of creative research and developmental engineering coupled with top quality production capabilities. The pumps designed as a result of this combination are unsurpassed in their field. This has been successfully demonstrated in literally hundreds of thousands of original equipment and aftermarket applications. The lightweight, compact size, ease of installation and service make Facet Electronic Fuel Pumps ideal for domestic and import automotive applications. Motor Components is your source for all domestic and import electronic fuel pump needs. Three basic types of pumps are available.

**Cylindrical Solid State Pumps** - Facet Interrupter Pumps have been successfully used for over 50 years on thousands of applications that range from heavy-duty agricultural equipment to prize-winning race cars. Enclosed in a compact, watertight steel case it outputs up to 170.3 liters/hour, .68 BAR. Specify these pumps for cars, trucks, tractors, and

construction equipment, even industrial engines. Superceding these units to the Solid State circuitry does not change the fit, form, or function of its precision. This enhancement increases the Fuel Pump's life.

**Cubed Solid State Pumps** - Facet Solid State Pumps have been proven on thousands of original equipment (OE) applications. Based on the results of comparative testing of competitive electric fuel pumps, the Facet Solid State Pump is unquestionably the most reliable pump available today. These long lasting pumps provide outputs up to 132.5 liters/hour, .68 BAR. They are available as OE replacements for Japanese applications and two universal models provide complete coverage for all low and high-pressure carburetor-equipped cars, vans, RV's and light trucks.

**Fuel Injection Pumps** - Designed to supply fuel instantly and without pressure pulsation. These fuel injection pumps are available for many popular European and Japanese applications.

## NOTICE

- This guide may not include all applications for Facet Universal Fuel Pumps. Refer to pump specifications of engine manufacturer for additional applications.
- Facet Universal Fuel Pumps may require other components for proper final installation in addition to those supplied.
- Some applications of the Facet Universal Fuel Pumps (including those described in this guide) require the use of a fuel regulator.
- The use of a fuel filter (sold separately) is recommended for all Facet Universal Fuel Pump applications.
- All information in this guide is based on data available at the time of publication. Motor Components, LLC is not responsible for any errors resulting from data supplied by others and assumes no obligation to update the information contained in this guide.
